DETAILED ACTION

Claims 1-13 are at issue and present for examination.

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, drawn to an isolated polynucleotide sequence encoding an amino acid sequence comprising eleven Casein kinase II phosphorylation site signature sequences, classified in class 536, subclass 23.1.
- II. Claims 5-13, drawn to an isolated polynucleotide sequence encoding a polypeptide of SEQ ID NO: 32, classified in class 536, subclass 23.21.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the polynucleotide of Group I and the polynucleotide of Group II each comprise a chemically unrelated structure capable of separate manufacture, use and effect. Each of the polynucleotides of the different groups encodes proteins that are structurally unrelated.

Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification, and the literature

and sequence searches required for each of the Groups are not required for another of the Groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

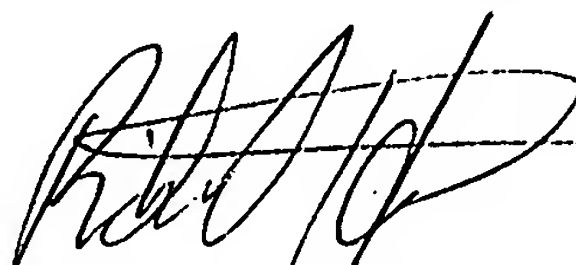

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).
